

# Wisdom of the Elders: Discovering Yidong Xinag (the Old Wisdom) Peer Mentor Program Spring and Summer 2016

Discovering Yidong Xinag ("The Old Wisdom") is an environmental and climate leadership initiative for Native American youth.

The peer mentors will receive a stipend for participating in trainings from April – May (weekends) and June – August as they learn about:

- Skills training in peer mentoring and leadership
- Local and regional environmental and climate issues
- GIS survey mapping
- Video production and post-production editing

Peer mentors will interact with K-12 youth at Wisdom's Summer Field STEAM (science, technology, engineering, art, and math) Camps for in June and July 2016. Camp sessions include classroom education in the mornings and afternoon service learning activities at natural areas in the Portland areas. In the fall, we will show their video productions at a Video Screening and Community Consultation and acknowledge them for their work.
